“ It was an adventure to meet Diane and to accompany her in her last few months on earth! She had the greatest laugh, was very sensitive, and always wanted to be on the go. A trip to Tops, even grabbing a cheeseburger together, she enjoyed so much and made so interesting. Diane always wanted to get out, to be on the go... and it was nearly impossible to say No to her! I wish I had gotten to know her when she was healthy and I am so glad I did experience some of her love of music and of poetry and of the things of God. Although she was infirm while I knew her here, in heaven I hope to ride horses with Diane and to see her be able to feed her "dear deer friends" once again, enjoying herself in little things, without suffering any more. I feel blessed to have known Diane.

“ I had the pleasure of meeting and caring for Diane for a short period of time before her passing. She was both a challenging and delightful patient. When I told her how challenging she was, she would laugh, take my hand and remind me that she was also an RN and had many years of experience, and knew what she was talking about ! She shared her poems, her art work and her gift of caring. We quickly bonded and developed a unique friendship along side our nurse patient relationship. I was very honored to meet her and grateful for her trust in my care. She had an amazing faith in her Lord and I know she is now in peace. As she wrote in one of her poems, "and through your arrived-presence, our life is suddenly no more....Oh make haste, tarrying not to finally open heaven's precious door!"
