

Paul Cook

August 30, 1937 - June 2, 2026

Paul Cook, age 88 of North Tonawanda

Tearful and loving farewells were said on Monday, June 1, to our beloved brother-in-law Paul Cook as he left his home on earth to be reunited with his beautiful wife Aline in heaven. Paul passed away on June 2nd after a short illness. Paul will be remembered by his family and friends for his devotion and caregiving to Aline who for years battled multiple sclerosis. Not once did he complain about caring for her even though he himself had many health problems. When Aline was in a nursing home, he visited her twice a day to talk, reminisce, watch TV and help her eat. Their romance goes back to 1974 where they met at Weir Industries after fellow workers nudged him to ask that pretty secretary for coffee and because she said "yes" the rest is history. He was a shining example of the true meaning of love and the sacredness of marriage vows. While he was able, Paul loved taking his dog for walks and chatting with the neighbors. His favorite thing to do was getting together with family on the holidays or sitting outside at his sister-in-law's home for barbecues. As an engineer by trade, Paul enjoyed cars and looked forward to trading in the old for the new every few years to see what technological designs were added. In his earlier years, he and Aline were "snow birds" driving to Florida for the winter months in a specially equipped van for Aline or years later flying to California to be near his sisters-in-law. Paul is survived by his brother-in-law Ted Kryzuda and his wife Donna and sisters-in-law Audrey

and Aurie Kryzuda He will always be in our hearts and remembered as our "brother". Now go dear brother and dance with Aline in heaven.

“ To Paul, I have known you only a short time but I knew from the start you were a kind and gentle soul. I wish I had known you longer, and form a deeper friendship. You are sorely missed by your family and your puppy and I know you are dancing in the sky with your true love.

*Always with love,
Michelle Dyl*
